Caries the DISEASE "How to manage"

With Speaker Dianne Testa RDA, RDH, BS

Dianne received her Bachelor's in Dental Hygiene from the University of Minnesota. Dianne's background includes: clinical practice, director of a dental hygiene program, clinical instructor, educator, public speaker, and a consultant. She currently speaks throughout the country on many topics from OSHA and infection control, Remineralization and Sealants without isolation and Saliva Testing. Dianne has been published in the Illinois Dental News on her work in Infection Control, and in Practical Dental Hygiene on her work with enzyme suppressing drugs used in periodontal therapy. Dianne has received awards for Minnesota's Outstanding Hygienist in 2000 and the faculty Innovation Award in 2001. Her 30+ years in dentistry shows in the excitement she brings to her lectures and training seminars. Each and every participant leaves with valuable knowledge and the understanding of her love for dental hygiene. Her enthusiasm is contagious and keeps the audience interested and entertained.

COURSE OBJECTIVES/OVERVIEW

Upon completion of this course, attendees should be able to:

- Review the demineralization process
- Learn how teeth can remineralize
- Provide tools for assessment, treatment planning and case presentation
- Demonstrate competency of caries risk assessment
- Evaluate dental caries and determine pathological factors
- Distinguish healthy saliva verses sick saliva
- Understand the usage (or not) of a sharp explorer
- Develop a program that provide your patients healthier teeth
