	"Smiles for Seniors	Ohio Dental Association	All Audiences	www.oda.org	Smiles for Seniors: An Oral health Initiative of the Ohio Dental Association. Smiles For Seniors is a program developed in 2005 by the Ohio Dental Association in response to the need for education and awareness on the importance of continued good oral health for the older adult population. This program serves older adults living independently in home, semi-dependent older adults who need partial or full assistance from a family member or other caregiver. The program also contains information that can be of assistance to those caring for residents of long-term care facilities. This program is not copyrighted and duplication of all materials, print, video, CD-ROM or Powerpoint, is encouraged. Posting the materials on websites is also recommended. Through duplication of the program, the information can be disseminated to the populations listed above, as well as to those who work with older adults in a professional and/or personal caregiver capacity.

Curriculum (Continued)	Powerpoint for training healthcare professionals	University of Pennsylvania School of Dental Medicine	Caregivers, healthcare professionals working with the elderly	http://www.nursing.upenn.edu/cisa/geroTIPS/tlcltc/Pages/Module10.aspx	Powerpoint for training healthcare professionals on oral health of the older adult. This presentation is designed to educate non-dental health care providers, particularly direct care staff in the provision of mouth care for older persons residing in long-term care facilities. Dental health is important because dental disease and mouth problems are common in the nursing home and homebound population. The mouth has been called a mirror of health and disease because there you find signs of systemic diseases, microbial infections, and nutritional deficiencies. University of Pennsylvania. "Providing Dental Care for Older Adults in Long Term Care" Ann Slaughter, DDS, MPH, Assistant Professor, Course Director, Geriatric Dentistry, University of Pennsylvania School of Dental Medicine
	Curriculum Guide for the Dental Professional. Oral health for Independent Older Adults	American Dental Education Association and GlaxoSmithKline	Dental Professionals and students, faculty of dental schools	http://www.adea.org/publications/Pages/OralHealthforIndependentOlderAdults.aspx	Assists faculty of dental schools with objectives, content topics, resources for educating the dental professional and student about Oral health for the Independent Older Adult. Dental Professionals will find this information useful for their dental practice as well.
