Open the Doors to Discovery...

A Day with Susan Wingrove

Secrets to Implant Success

ASSESS, IDENTIFY & MAINTAIN

Many of us are confused by conflicting messages. **The latest research is surprising.** As dental professionals we want to be able to confidently discuss implant treatment options and meet the challenge of providing safe, effective implant maintenance; **what's best and why?**

End the confusion with advanced systems for assessment, instrumentation, monitoring, and peri-implant disease treatment based on Susan's current textbook. Learn the untold story on peri-implant disease to know what to identify in your evaluation.

At conclusion attendees will be able to:

- Identify cement residue implantitis
- Assess, Identify, & Maintain dental implants
- Confidently discuss treatment options
- Understand the importance of 3D technology
- Evaluate for peri-implant disease
- Recommend safe products for home-care
- Instrumentation: **Which, When and Why**

Regeneration not Repair!

NEW AGE OF PERIODONTAL MEDICINE

We are entering an exciting era in dentistry. We now have the ability, tools and products to regenerate bone and tissue, not simply 'manage or repair' it. Current statistics point to the urgency for clinicians to identify and treat mucosal oral infections that have a confirmed oral systemic connection. **Do you know what to look for in your exam?**

Learn Advanced Comprehensive Exam (A.C.E.) skills and an understanding of guided bone/tissue regenerative procedures that shifts your evaluation to the next level.

Discover why regeneration dentistry is the best dentistry has to offer!

At conclusion attendees will be able to:

- Initiate 'A.C.E.'
- recommend regenerative procedures
- Provide maintenance following regeneration
- Understand socket preservation

**SUSAN
WINGROVE,
RDH, BS**

Susan Wingrove, RDH, BS, an International speaker, clinical dental hygienist who does regeneration research and instrument design. She is the designer of the Wingrove Titanium Implant Set™, A.C.E.™ probes, and Queen of Hearts™ instruments. She is a member of the Academy of Osseointegration, American Dental Hygienist's Association, and International Federation of Dental Hygienists. Susan publishes articles on advance hygiene, regeneration, and implant dentistry in National/International journals. Author of *Peri-Implant Therapy for the Dental Hygienist: Clinical Guide to Maintenance and Disease Complications*, 2013 textbook by Wiley-Blackwell.
