

Help Older Adults Get Smart About Their Mouths

Oral Health America's Wisdom Tooth Project® is looking for registered dental hygienists in Michigan to deliver an innovative oral health program to older adults.

The program, **Tooth Wisdom: Get Smart About Your Mouth**, is a brand new, first-of-its-kind health education curriculum designed specifically for older adults living in the community. It is designed to empower participants with dental knowledge and provide tips on how these adults can better care for their own oral health. We are seeking registered dental hygienists who have a passion for working with older adults. Michigan Dental Hygienists' Association membership is not required.

Workshops will be conducted in community settings, such as senior centers, libraries or places of worship. Workshop content will be fully prepared and **FREE** leader training provided. Metropolitan Area-based hygienists are needed to deliver these workshops. Care will be taken to match a hygienist with a community close to where they practice/live.

Your commitment includes:

- **Participation in ONE** four-hour interactive training session (location TBA) the potential dates:

Thursday, June 16th, 5pm-9pm
Friday, June 17th, 10am-2pm
Saturday, June 18th, 10am-2pm
- **Delivery of at least TWO workshops**, in coordination with your schedule, organized by Area Agencies on Aging Association of Michigan (4AM), at locations where older adults congregate. You would have aid of a representative from 4AM. The time commitment is no more than 2 hours for each workshop.

If you are interested in participating, please email your name, address, cell# and all of the dates that you can attend in order of preference to:

Allison Restauri, MDHA President (KITAandROO@hotmail.com)

GET **SMART**
