

# Seminars for Dental Professionals

## Dental Seminars and Consulting PLLC

### July 14, 2017 - 4 CE

---

## The Changing Face of Dental Hygiene Practice

(expert clinician, skilled motivator, and prevention specialist)

**Lillian Caperila** RDH, BSDH, M.Ed, Educational Manager

As we observe the reorganization of healthcare delivery throughout the world, the dental hygienist is now evolving into a key healthcare specialist. This program paves a new direction in specialized roles to include advanced clinicians, effective motivators combined with recognizing that prevention is our only tool to optimal oral and general health. The participants will learn and share their ideas in exploring the skills necessary to become the dental hygienist of the future!

#### Learning Objectives:

- Envision future roles for the registered dental hygienist
- Reorganizing dental care delivery utilizing all team members
- Choose effective treatment modalities
- Explore the need for diagnostic technologies and best practice screening
- Diagnostic instrumentation and utilization of risk assessments
- Capitalizing on your greatest skills in the healthcare team
