2 "LIVE" CE via ZOOM - 9 AM - 11 AM

**"Orofacial Myofunctional
Therapy: For the Health of It!"
(What is Myofunctional Therapy and why
you need to know about it)**

By Barbara K. Tritz RDH, MS, MSB, HIAOMT

Dental hygienists have an important role in the treatment and prevention of dental diseases. We must open our eyes to OMDs and airway related problems. They have a direct impact on systemic health issues as well as periodontal disease, dental caries and malocclusion.

Learning Objectives:

1. Define Orofacial Myofunctional Therapy and its goals.
2. Identify Orofacial Myofunctional disorders and improper muscle patterns.
3. Learn how OMD's contribute to dental diseases such as periodontal disease, caries, xerostomia.
4. Understand the role of myofunctional therapy in the dental office.
5. Learn how noxious habits may affect children's growth and development.

LOCATION: Virtual Seminar via ZOOM - link to be sent the week of the seminar to registered attendee's email address.

REGISTRATION: 2 "live" CE for \$38 (Deadline is 2/13/21)
